Reinforcing Mesh App Guide

Apple & Android

“Reinforcing New Zealand since 1954”

Overview

The Fletcher Reinforcing Smart Phone App is designed to offer you immediate access to the information you need about our ranges of Super Ductile and Hard Drawn meshes.

This Guide will outline how to access this information quickly and easily.

Downloading

Available for both the Apple iPhone and all Android phones, the free download can be accessed through the Apple App Store and the Android Market. Just search for ***“Fletcher Reinforcing”***

Alternatively, scan this QR Code from your phone to be taken to the appropriate download:

Current Devices

The App is currently available for:

- iPhone
- Android phones
- iPad (not optimised)

App Navigation

To access all areas of the application, simply tap on the Menu icon at the top left of the screen when the App opens. This gives you a menu of all the pages.

Mesh Products

The first screen lists our Mesh products and some typical Applications. Scrolling down the screen will display the full list of our mesh products available with a basic description of that product. Tap on the mesh you are interested in to open a page with more detailed information including a link to open the full specification sheet for that product.

Tap on the **share** icon to:

- set the product as a "favourite"
- send the product information via email
- share on social media sites
- Send via SMS

Specification Sheets

By clicking on the blue link on every Mesh Product page the App will download the specification sheet for that mesh. To be able to send that pdf to another person, you will have to send the previous page by email. The email received will allow the recipient to download the pdf document themselves from our web site.

Technical

The second screen offers links to some key technical information about our mesh products.

Tapping on an item will open a page that contains a link to a pdf document containing more information about the specific subject.

To send the pdf document to a colleague, then you must tap on the **share** icon from within the page.

Favourite Mesh

If you regularly need to access a mesh product's information, the App offers you the ability to add that specific product to your **Favourite Mesh** page—that way you can go straight to the information as soon as you open the App.

To add a product to the **Favourite Mesh** page—simply select Add To Favourites from the **Share** icon:

Branch Contacts

The App will automatically order the list of Fletcher Reinforcing branch locations for the closest branch to you if you have enable location services on your phone.

Tapping on the location will allow you to find the branch via the map app on your phone, phone the branch with one click or send

More....

On the side Menu there is access to some additional information and tools:

- **News**—we will from time to time update you on new products or events you might be interested in.
- **About Us**—some general information on Fletcher Reinforcing
- **Links**—links to some key partners online
- **Web Site**—a link to the mobile version of our web site
- **Share**—let your colleagues and friends know about the Fletcher Reinforcing Mesh App

Feedback

We welcome all feedback about the App. Please send any comments you have to: info@freo.co.nz and we will respond to you as quickly as possible.
